PENTAPRINT® HDPE FILMS NOW AVAILABLE FROM KLÖCKNER PENTAPLAST

Gordonsville, Virginia – June 30, 2009 – The Pentaprint® film product line has been extended to include Pentaprint® W-3404 rigid HDPE films for indoor and outdoor use. These films have been engineered to provide better impact and tear resistance than PS or PP substrates allowing for extended product life and, therefore, cost savings for the customer.

Ideal for indoor/outdoor signs, horticultural tags, promotional graphics, and binder covers, Pentaprint® rigid HDPE films offer limited UV protection, good printability, and enhanced lay-flat properties. These HDPE films are designed for screen and UV or conventional litho flexo printing presses. Pentaprint® rigid HDPE films are available in sheet or roll format.

“Pentaprint® rigid HDPE are ideal for extending the life of indoor and outdoor applications which require better impact and tear resistance,” comments Tom Mucenski, Klöckner Pentaplast’s business manager for printing films for the Americas. “Along with our existing Pentaprint® printing films, we continue to provide our customers with the broadest selection of films available in the global marketplace today.”

About the Klöckner Pentaplast Group

The Klöckner Pentaplast Group is the world’s leading producer of films for pharmaceutical, medical device, food, electronics, and general-purpose thermoform packaging, as well as printing and specialty applications. Founded in 1965 in Montabaur, Germany, Klöckner Pentaplast has grown from its initial facility to 19 current production operations in 11 countries.

The Klöckner Pentaplast Group is wholly owned by affiliates of The Blackstone Group. The company has sales of over \$1.6 billion (€1.1 billion) and employs more than 3,200 people
