press backgrounder

The Klöckner Pentaplast Group is the world's leading producer of films for pharmaceutical, medical device, food, electronics, and general-purpose thermoform packaging, as well as printing and specialty applications. Founded in 1965 in Montabaur, Germany, Klöckner Pentaplast has grown from its initial facility to 17 current production operations in 11 countries.

The Klöckner Pentaplast Group is wholly owned by affiliates of The Blackstone Group. The company has sales of over \$1.4 billion (€1.024 billion) and employs more than 3,000 people committed to serving customers worldwide.

Leading Technology and Worldwide Manufacturing Excellence

Klöckner Pentaplast has a proven commitment to manufacturing excellence. We operate the most advanced calendering, extrusion, coating, laminating, stretching, and printing technologies. Klöckner Pentaplast continually invests in state-of-the-art production technology to ensure that our products perform consistently and meet precise specifications for color, surface, thickness, and formulation every time. High tech manufacturing has made Klöckner Pentaplast the industry leader in gauge control, which ensures higher yields and lower costs for customers.

Our facilities are ISO registered and manufacture in a controlled environment to the strictest cGMP and BRC/IoP standards. Stringent quality control is exercised throughout – from incoming raw materials through production to shipping – and we have absolute traceability of materials and products. Production facilities include a state-of-the-art laboratory for research and development of new products and technical support.
