

Pentacard® kpFoil® films

If you are looking for vibrant graphics and high impact to enhance your brand appeal, choose Pentacard® kpFoil® films. These films deliver brilliant graphic impact and sparkle, which is impossible with conventional ink on white print stock.

kp delivers a comprehensive, full-face foil card solution with customizable foil, core, and overlay films and print receptive coatings. Available in a wide range of patterns, holographic images, and colors, Pentacard® kpFoil® films are engineered to be processed with standard card laminating and printing processes. These films can be used for a wide variety of card applications, including secure financial cards and RFID card structures.

Standard foil patterns

- Rainbow
- Bright silver
- Brushed aluminum

Specialty patterns

- Cracked ice
- Sparkle
- Stardust
- Swirl
- Customizable patterns, holographic images and graphics available

kp offers the widest range of high-quality materials and solutions for the card industry. Our product line is backed by hands-on technical service and support. The kp sales team has the expertise to help you identify the right product for your application. And our card testing capabilities enable us to provide technical evaluations and custom formulations for each and every product we manufacture—wherever you manufacture cards.

Polymers:

Polyester/Foil/PVC laminated structures (front)

Polyester/Holographic/Foil/PVC laminated structures (front)
