

Pentamed® PETG Anti-Stat films

Klöckner Pentaplast now offers Pentamed® PETG rigid films with anti-static properties. These anti-static films provide a cost effective solution when your ESD requirements are less demanding and certification is not required.

Pentamed® PETG Anti-Stat films have the same performance properties as medical grade PETG films while helping to prevent the build up of static electricity. No matter what your applications, Klöckner Pentaplast has the right film to meet your needs.

Benefits

- › FDA compliant for direct food contact with registered Medical Device Master File
- › Manufactured under strict ISO 9001 and cGMP standards
- › No need to change tooling or package design
- › Same thermoforming range as medical grade PETG films

Applications

- › Blisters
- › Clamshells
- › Thermoformed package
- › Trays

Description

- › Available in standard transparent blue tints
- › Brilliantly clear
- › Custom colors can be requested
- › Gamma, E-beam or EtO sterilizable rigid PETG film for medical device packaging
- › Gloss/ gloss surface
