## press release

**FOR IMMEDIATE RELEASE**

### **KLÖCKNER PENTAPLAST TO EXHIBIT AT INSULATION EXPO USA (IEX USA) 2017**

**Montabaur, Germany – July 31, 2017** – Klöckner Pentaplast will introduce Isogenopak, an easy-to-apply pipe insulation film, to the American market at the upcoming IEX USA trade show, September 12-13, 2017 at the George R. Brown Convention Center, Houston, TX. IEX covers insulation for mechanical systems in the commercial and industrial markets.

“Isogenopak takes cost out of the installation process,” says Vic Shifflett, Global Product Manager, Industrial. “It’s easy to cut and its self-curling feature makes it easy to install. There isn’t as much time spent preparing for the job or time on the job. Plus, the 0.35 mm thickness yields 30% more jacketing per roll compared to other PVC pipe insulation jacketing.”

“During the show we will be installing Isogenopak on a model pipe configuration using the same film and cutter that would be used in the field,” says Stefan Jetz, Sales Manager, Construction Films. “I invite anyone interested in clean, easy-to-use jacketing to stop by booth 4515 to see a demo.”

#### **About Klöckner Pentaplast**

The Klöckner Pentaplast Group is a global leader in rigid and flexible packaging, printing and specialty solutions, serving the pharmaceutical, medical device, food, beverage and card markets, among others. Through the acquisition of LINPAC, an international market leader in the production of primary fresh food packaging and food service solutions, kp expands its capabilities, providing multi-material technology and offering a wide range of flexible films, from complex multilayer barrier films to simple monolayer structures. With a broad portfolio of packaging, films and services powered by innovation, Klöckner Pentaplast plays an integral role in the customer value chain by marketing and protecting product integrity, safety, consumer health and brand reputation. Klöckner Pentaplast has
