**FOR IMMEDIATE RELEASE**

### **KLÖCKNER PENTAPLAST INTRODUCES ITS NEW ULTRA-HIGH BARRIER PVdC FILM**

**Montabaur, Germany – October 9, 2018** – Klöckner Pentaplast Pharma & Medical Device Films Division (kp PMD) introduces its latest innovation in ultra-high barrier with Pentapharm® alfoil® ET SG. This new ultra-high barrier PVdC series demonstrate kp's commitment to offer world class solutions to a constant evolving industry. alfoil® ET SG films extend the company's portfolio of pharmaceutical blister films for the growing high barrier market.

alfoil® ET SG films are an excellent choice for a wide range of applications such as ethical, OTC, generics, veterinary and nutraceutical. The triplex structure is designed with Super Glide (SG) finish allowing for high line speed with low friction, unique smooth surface and improved product feeding. "alfoil® ET SG delivers outstanding value to performance ratio with a specially formulated color package to guarantee a consistent visual appearance while protecting your brand. The unique benefit of the SG finish will help reduce stickiness while improving package integrity. This leads to higher line productivity and yields for our customers" states Michael Vollgold, Senior Vice President of Sales.

alfoil® ET SG provides excellent moisture and oxygen barrier properties. The product reduces stickiness while improving barrier performance and package integrity. alfoil® ET SG is available globally with production in Switzerland.

If you're interested in learning more about kp PMD and our products, we're happy to welcome you at our booth at one of the upcoming shows:

- Booth #2F10 at CPHI Worldwide, October 9-11, 2018 in Madrid, Spain
