

Press release

Decorative Surface Films for 3D Thermoforming made by Klöckner Pentaplast

Montabaur, Germany – June 25, 2015

Klöckner Pentaplast, one of the global market leaders in the manufacturing of rigid PVC and PET plastic films, has expanded its Pentadecor® surface film collection: the high-quality films – in new colors, patterns and surface finishes for the 3D thermoforming sector – are characterized by their special feel and the images of natural elements.

The Pentadecor® surface film collection includes the latest wood decors, e.g. Mont Blanc Pine, Vinay Walnut and Sweet Chestnut. Mont Blanc Pine - straight from nature. This decor, complete with plastic crack and knot details, is already experiencing major market success, particularly in White Pine. Walnut rediscovered: on an exceptionally fine basic structure, the effect of the Vinay Walnut comes from the contrast between fibres and flowers. Pure understatement. Whereas the Sweet Chestnut, which comes in three color shades, captivates with its soft appearance; the off-white version and the variant that is reminiscent of charcoal are particularly suitable for a home environment dominated by contrasts between dark and light. A natural tone rounds off the Sweet Chestnut range. Special surface textures that emphasize the natural wood design are what defines the feel of the Pentadecor® "Tac Line" series. A new slate texture - appropriately lighted - can also deliver exciting light and shadow effects.

In addition to the new decors, Klöckner Pentaplast has also expanded the selection of Pentadecor® block colors; in particular, the PET high-gloss range offers a comprehensive selection, from various shades of white and coloured tones, through to deep high-gloss black.

Catalogues and samples can be order at:

About the Klöckner Pentaplast Group

The Klöckner Pentaplast Group is a global leader in providing packaging, printing, and specialty solutions serving the pharmaceutical, medical device, food, beverage, and card markets among others. With a broad portfolio of rigid plastic films and services powered by innovation, Klöckner Pentaplast plays an integral role in the customer value chain by marketing and protecting product integrity, safety, consumer health, and, ultimately, brand reputation.

Thanks for 50 years

Founded in 1965 the company is celebrating its 50th anniversary under this motto, extending special thanks to clients, stakeholders and employees for their commitment.

Klöckner Pentaplast has grown from its initial facility in Montabaur, Germany, to effective operations in 12 countries with 18 production sites. Within the last financial year, the company had sales of over € 1.194 billion and currently employs over 3,000 people committed to serving customers worldwide. The Klöckner Pentaplast Group is wholly owned by an investor group led by SVP Global. For more information, visit our web site at www.kpfilms.com.
