KLÖCKNER PENTAPLAST TO DISPLAY NEW PACKAGING SOLUTIONS AT PHARMAPACK 2017

Montabaur, Germany – December 22, 2016 – Klöckner Pentaplast will present the latest range of pharmaceutical packaging solutions and services at Pharmapack 2017 (**Booth A30**), February 1-2, 2017, in Paris, France.

Pentapharm® LiquiGuard™

Klöckner Pentaplast will introduce LiquiGuard™, the latest inventive addition to the Pentapharm® line of pharmaceutical blister films. With Pentapharm® LiquiGuard™, hot and cold-fill liquids and semi-solids can be formed and packaged directly in a crystal-clear, thermostable laminate film that protects sensitive products from package leaching and moisture gain or loss. “Pentapharm LiquiGuard™ provides an advanced option for unit dose packaging of liquid or semi-solid medications that require resistance to extreme temperatures from hot (120°C filling) to cold (-183°C and lyophilized) during processing, while offering all the benefits of a clear, thermoformable blister film with a customizable moisture barrier,” states Frank Oliveri, Director Global Marketing, Pharmaceutical Packaging. Visit the kp team at Pharmapack to learn more about this new solution

BlisterPro® XCEL Services

BlisterPro® XCEL Services optimize the union of product and packaging. Protective barrier properties of the final package are predicted reducing or eliminating the need for expensive and time-consuming line trials. For over 50 years Klöckner Pentaplast has been a leader in producing high performing barrier films; the addition of BlisterPro® XCEL material selection and design execution has become a science, setting kp apart from other film producers. Imagine the value created when many
