

Klöckner Pentaplast & Berry Plastics

ONE SOURCE. COMPLETE SOLUTIONS.

klöckner pentaplast

EXPANDED PACKAGING CAPABILITY FOR FORM-FILL-SEAL APPLICATIONS

PACKAGE OPTIMIZATION AND DESIGN SUPPORT

SIGNIFICANT PRODUCTION CAPACITY WORLDWIDE

PACKAGING THAT CONSUMERS LOVE TO SEE AND USE

In a competitive food industry, packaging that allows the consumer to see and experience the product gives brands an edge.

Realizing an unmet need in the marketplace, Klöckner Pentaplast and Berry Plastics formed an alliance to provide innovative clear form-fill-seal packaging solutions.

Our solutions contribute to brand appeal on the shelf, enhanced content protection, and easy opening and usage features aimed at bringing consumers back again and again.

TOTAL SOLUTIONS...

Klöckner Pentaplast's forming films and Berry Plastics' non-forming lid stock and advanced sealing and labeling systems are designed to help support your most difficult packaging challenges.

Food Safety & Consumer Convenience

- Tamper-evident technology on easy-to-use reclosable lid stock
- Engineered seal strength for product safety and easy opening

Sustainability

- Recycled content available in most forming film formulations

Shelf Appeal

- Advanced films create clear, attractive trays and lidstock options
- Printable colors, surface textures
- Large label area

...ONE SOURCE

- A comprehensive line of packaging films
- Expanded packaging capability for form-fill-seal applications
- Hot-fill packaging, high-pressure pasteurization, microwaveable trays, and dual ovenable applications
- Responsive, expert technical customer service
- Integrated design team support to optimize your package solution
- Knowledgeable about sustainable solutions
- Timely, dependable delivery

SPEED TO MARKET

Ready for best-in-class technical support? We offer expertise on film composition and performance to help guide you in building a package that enhances your customers' brand value.

Klöckner Pentaplast's technical services help support efficient development timeline with...

- Accurate thickness distribution predictions of formed trays
- MTRV and OTR calculations
- Existing design optimization
- Thermoforming issue resolution
- Tray cavity shape change evaluation

Berry Plastics' 18,000sq ft Flexible Innovation Center and Blue Clover Studios speed concepts to shelf with...

- Research, idea generation, and capturing sketching and 3D modeling
- Package size, shape, and seal performance development
- Lid stock and forming film troubleshooting
- Prototyping with post construction printing using digital print

Eye tracking studies show that consumers fixate longer on clear packaging compared to paperboard cartons.

Blue Clover Studios is a state-of-the-art design studio that specializes in designing packaging that marries creativity and functionality to meet consumers needs. studioblueclover.com

Visual packaging quickly moves from concept to shelf with Klöckner Pentaplast's rigid films and Berry Plastics' non-forming lidstocks.

TOGETHER, WE ARE YOUR ONE SOURCE FOR
THE MOST DEMANDING PACKAGING CHALLENGES.

ABOUT

Klößner Pentaplast

The Klößner Pentaplast Group (kp) is a global leader in providing packaging, printing, and specialty solutions serving the pharmaceutical, medical device, food, beverage, and card markets among others. With a broad portfolio of rigid plastic films and services powered by innovation, kp plays an integral role in the customer value chain by marketing and protecting product integrity, safety, consumer health, and, ultimately, brand reputation.

Founded in 1965, kp has grown from its initial facility in Montabaur, Germany, to current operations in 12 countries with 18 production sites. The company employs more than 3,000 people committed to serving customers worldwide.

Klößner Pentaplast manufactures the industry's broadest range of products, with an unsurpassed reputation for quality, customer service and technical support. We continuously strive to advance sustainability practices in the markets we serve.

Berry Plastics

Berry Plastics is a global manufacturer and marketer of plastic packaging products. Headquartered in Evansville, Indiana, the company operates over 80 global manufacturing facilities and employs over 16,000 individuals. With annual sales exceeding \$5 billion, it is one of the largest plastics packaging producers in the world.

Berry Plastics' history is rich in product innovation, customer focus, and strategic growth. Throughout its history, the dedication of team members has allowed Berry Plastics to grow into a leading global manufacturer of injection-molded plastic packaging, thermoformed products, flexible films and packaging, as well as tapes and corrosion protection products.

Berry Plastics began more than five decades ago with a simple vision: to become the leading manufacturer of injection molded packaging in the United States. That vision has been realized and exceeded.
